

Roof window – Attractive idea: Gain extra light through the roof

Would you really like more light and transparency in your home, but with the minimum of intervention and without major modification to the roof? Then a roof window from s:stebler is just right for you: it reflects the pattern and alignment of the roof tiles and in external appearance blends discreetly into the roof structure – without projecting frames, additional construction or prominent glazed surface. In this way s:stebler roof windows maintain the line of the roof and are convincing – even to progressive architects and designers. In terms of functionality the roof tile windows from s:stebler leave nothing to be desired. The lamella construction enables you to achieve automatic ventilation and control of room temperature via an electrical control system which provides precise regulation to meet your requirements.

	Height	Standard width possible for all heights	Individual width
3 Opening panes	1178 mm	700 mm	Width can also be individually specified
4 Opening panes	1475 mm	840 mm	
5 Opening panes	1775 mm	1330 mm	
6 Opening panes	2075 mm	1930 mm	
7 Opening panes	2375 mm	1930 mm	
8 Opening panes	2675 mm	2530 mm	

Flexible and tried and tested. Our roof windows can be built into existing roof structures – even in inaccessible places. And the size of the window is not limited – s:stebler roof windows are available in standard sizes, but also in customized dimensions. There is also a wide choice of glass quality.

Elegant and durable. Thanks to their narrow construction profile our roof windows are very elegant in appearance ... and extremely durable due to the high quality of the materials and components that are used.
