

s: box 17

Mailbox with parcel compartment in kit form

With the s: box 17, your new mailbox with secure parcel compartment can be realized quickly and easily. Delivery is made in kit form for self-assembly. With dimensions of 440 x 800 x 340 mm (W x H x D), the secure parcel compartment corresponds to the CH/D postal standard. After a parcel is deposited, the compartment is locked and can only be unlocked again with the key. The s: box 17 is made from aluminum and is thus resistant to corrosion. It is supplied with a standard cylinder and nameplate. As the mailbox is equipped with a drip edge, letters are kept safe and dry whatever the weather. The s: box 17 is manufactured to our high quality standards at our Swiss site in Oensingen.

Assembled in a flash

The s:box 17 is delivered in kit form in a handy carrying box. Thanks to the simple instructions, the mailbox can be assembled in next to no time – and also with a minimum of fuss. Your self-built mailbox with secure parcel compartment will then soon be ready for the first letters and parcels. Talk about practical! You can give your s:box 17 an individual touch by selecting your favorite colors from our range. The housing and front are powder coated and are each available in seven RAL colors. Your path to a new, attractive mailbox is an easy one, no matter if you choose red, blue, green or traditional grey.
